

Activity Report 2020/2021

SPORTS CLUB

CÓRDOBA

SUPERGLADS

MAIN INSTITUTIONS WITH WHICH WE COLLABORATE

I. INTRODUCTION

This report compiles the activities of the sports modality of floorball carried out by Club Deportivo Córdoba Superglads from September 2020 to July 2020. 2021.

A difficult and at the same time unforgettable season for the Cordoba Superglads sports club comes to an end with a mixture of satisfaction and sadness, for the important work carried out in the midst of an unexpected world pandemic, and for the fact of having to conclude it when we were enjoying it the most.

If in the month of September everything was doubts and unknowns, at the end of July, despite the fact that the situation was still complicated, optimism settled in the club and new projects occupied us during the summer season.

And it is that the difficulties at the beginning posed a huge challenge that with enthusiasm and work of our athletes, kids and adults, mothers and fathers, and with the help of responsible institutions, schools, fantastic physical education teachers and sports clubs, collaborators and good friends, has resulted in the end a fantastic and unforgettable annual session. There is still a lot of work to be done, but much more fun, health and learning, for next season in which we hope to have more participants, do you join field hockey for all?

Last session of the Maristas Superglads nursery school.

/// ACTIVITY INDEX

- A. WEEKLY ACTIVITIES AND PROMOTION: schools, classes and workshops in PE.
- B. OTHER ACTIVITIES TO PROMOTE FLOORBALL IN CORDOBA.
- C. COLLABORATION WITH THE PROVINCIAL COUNCIL - LOCAL NETWORK PROGRAM
- D. COLLABORATION WITH THE SPANISH UNIHOCKEY FLOORBALL ASSOCIATION
- E. COLLABORATION WITH THE UNIVERSITY OF CORDOBA
- F. OTHER EFFORTS TO PROMOTE FLOORBALL IN ANDALUSIA AND CORDOBA
- G. APPENDIX PARTICIPATION DATA1.

Weekend workshop at Maristas for 2nd grade group.

A. WEEKLY ACTIVITIES AND PROMOTION: schools, classes and workshops in PE.

A.1 MARISTAS SUPERGLADS MIXED CHILDREN'S FLOORBALL SCHOOL.

A.1.a WEEKLY OUTDOOR SESSIONS ON SUNDAY MORNINGS.

The bad prospects dragged by the months of pandemic, began to change in October when, thanks to the initiative of those responsible for sports activities in the school Cervantes Maristas Cordoba, the children's school of floorball unihockey Maristas Superglads was launched, in its second season of life, after being suspended since the beginning of the pandemic in early March.

We started the classes with only two students, in fact only one of them was able to attend the first session. The important thing was, as in the movie "to start again". A great and unforgettable session for all its significance of success and resistance to fatality, and that says a lot about the family and educational philosophy of our club. As long as we have a student, we have sport. With masks, gel, disinfection of material, outdoors, at night, and whatever it takes, but being where we wanted, on the court, and saying our favorite expression: Let's play!

Our two initial 20-21 students, with reversible bibs.

The school grew little by little, despite the fact that it was hardly able to carry out any promotion, and the logical reticence in the face of the difficult health situation. The Fernández Ortiz family was key to the survival of the activity, since in addition to Lucas and Javi, Raúl and Aarón, Javi's two older brothers, and later Carlos, Jorge and Maya, friends of the family, joined in. Eternal debt of gratitude to all of them and their families, and especially to our Fernández Ortiz, and to Cristóbal Pérez, father of Lucas, and regular collaborator of the school.

A.1.b I FLOORBALL STREET LEAGUE MIXED MARISTAS SUPERGLADS.

After the Christmas vacations we started within the school a very interesting experience, our first and own floorball competition due to the impossibility of participating in any, since it currently only exists in the community of Madrid, very far away, and even with a ban on travel between communities. We launched the I Maristas Superglads League for children of #floorball #unihockey, in acronym #LMS. A 3×3 Street competition (without goalkeeper and with mini goals of 90×60 cm.), by the original and practical system, genuine of floorball, called "point master".

Promotional poster of the league with the results of the 1st and 2nd days.

A total of 20 matches were played, which allowed two rounds of a league, and in each match combinations of players different from the previous ones, with each player individually accumulating points according to the result obtained by his team. An opportunity for our students to experience the sensation of victory and defeat, with no greater significance than playing for the sake of playing. Until the penultimate session the league did not end, and in the last one we had a small awards ceremony, a medal and a diploma recognizing each one, as a good Superglad, a superpower shown during the competition: super score, aiming, shooting, fighting or positivity. Skills that have made them grow sportingly and personally.

Churros with chocolate, diplomas and medals, and gifts for the teacher, great last day of school.

A.1.c Promotional floorball days and workshops at Maristas.

In the last part of the school year and in view of the following school season, several promotional actions were carried out in physical education classes at the Cervantes school and free workshops on two Saturdays in June, which we had planned since shortly before the beginning of the pandemic, at the beginning of 2020, but which could not be carried out until then.

Three classes of 2nd grade, students of the coordinator of the school's sports club, Carlos Garcia, about 90 in total, taught by Rafa Garrido with the invaluable collaboration of Pedro Haro. Subsequently, two free workshops were offered to these students, the two Saturdays following the class, which remained for the finalization of the course, and which were a great success, with more than a dozen participants in each of them, most repeating, and many of them eager to join our nursery school in the center, back from vacation.

One of the 2nd EPO classes³ that received the workshop in Physical Education, Rafa Garrido and Javi Fernández.

A.2 COLLABORATION WITH THE VIRGEN DEL CARMEN SCHOOL

In April we started a new and exciting collaboration with another prestigious educational center of our capital, the Virgen del Carmen school. It is an honor for us to enjoy their confidence to work on healthy and educational sport with their students. After contacting the club's physical education teacher María Madrid to be interested in our sport, we arranged an introductory day for the students of 2nd ESO, with almost 120 participants, divided into four classes, lasting one hour. Rafa Garrido and Pedro Haro were our collaborators who taught the four classes of the day.

Pedro and Rafa with one of the four participating classes.

After this day, and thanks to the great collaboration of María Madrid, we continued the promotion with the challenge of creating a children's group also in this school, to add weekly participants of floorball in Córdoba. Thus a large group of about 20 students, among those who liked the workshops the most, participated in a meeting in the sports facilities of the center, outside school hours, that same week.

A collage of photos from the May and June promotional meetings.

The best thing is that the meetings continued weekly during May and June, with a small group of 7 or 8 regular participants, already in the sports pavilion, thanks to the kindness of the school sports association that gave us the court, with the aim of encouraging the practice of this sport in the center and start with the beginning of the course, a new nursery school in its facilities, and formed a group of parents of students interested in continuing practicing floorball in school the next course.

A very exciting project, for which we want to extend the workshops to groups of first year of ESO and especially primary, at the beginning of the course 2021-2022, so that they can be organized in summer and succeed the new group of weekly meetings in a center as prestigious as the Virgen del Carmen school, one of the historical great school sports quarries throughout Andalusia. A lot of school sports history in those fields and outdoor tracks and in that pavilion.

B. OTHER ACTIVITIES TO PROMOTE FLOORBALL IN CORDOBA.

B.1 FREE WORKSHOP FOR TSEAS STUDENTS AT MEDAC OPEN ARENA

After the vacations, already in the month of February, and with the health situation improving, it was the turn of the initiation day of floorball unihockey to the second year students of professional sports training called TSEAS of the Medac Arena center.

After the online talk given to this group the previous course, the offer of our technical director to carry out the face-to-face session when possible was pending, which was finally received by two groups of these TSEAS students, with half a hundred participants in total, on February 11, in the indoor track of the Medac Open Arena facilities.

Promotional poster and a moment of the day at MEDAC Open Arena.

B.2 RECREATIONAL FLOORBALL PROMOTION MEETINGS

With respect to recreational floorball, for adults, the season has been particularly difficult. With no activity at UCO, at least two meetings were held in the spring. On the one hand that of Sandra and Carolina, sportswomen and sports and health professionals, and a group of their friends, which brought together eight new participants.

A collage of images during the initiation workshop of the recreational group.

On the other hand, two more meetings on Sunday after the nursery school, the group of aficionados friends of the club, physical education teachers, university students, parents of students of the schools, friends, more than a dozen in total, playing great full court games, in which also participated the students of the nursery school.

One of the meetings with friends, teachers and parents of the students.

C. COLLABORATION WITH THE PROVINCIAL COUNCIL - LOCAL NETWORK PROGRAM

C.1 ONLINE CHAT LOCAL NETWORK PROGRAM 2020

In the month of November our technical director Rafa Garrido gave an online conference to about twenty municipal sports technicians, within the Red Deporte Local program of the Sports 2020, area of the Diputación de Córdoba, about the great possibilities for the development of floorball unihockey in the provincial area, as an alternative sport, mixed team, fun, educational, healthy, economical, for all ages, abilities or physical condition.

C.2. TELEMATIC MEETING WITH THE DEPUTY AND THE SPORTS AREA.

Upon returning from Christmas, we were able to meet, virtually, with the sports officials of the Diputación de Córdoba. Its Deputy for Youth and Sports, Ana Belén Blasco, and the head of the Sports area, Alberto Tejada, both to thank the club's participation in the program the Local Network and 2020, to plan the following collaborations, the promoter course that took place in June, and others, such as the inclusion of floorball in another interesting program of Diputación: Elige tú Deporte, when the pandemic allows this one to resume. We are very grateful to the Diputación and its leaders for this great collaboration that is already bearing fruit and that we hope will continue to do so in the coming seasons.

C.3 ACTION FORMATION OF LOCAL NETWORK, CHILDREN'S AND RECREATIONAL FLOORBALL PROMOTER

In June, the University of Cordoba collaborated by lending the facility for another training activity with the Provincial Council of Cordoba, already face-to-face, and corresponding to the Local Sport Network 2021 program. A course for a total of 10 students, municipal sports technicians and physical education teachers. A full day of 8 teaching hours, to train in the creation and initiation of a children's or recreational sports school of this modality, with three theoretical modules and three practical ones, with the aim of sowing the seed of this modality in municipalities and educational centers of Cordoba and province, so that the schools of initiation so necessary to make its practice by many children and adults from Cordoba a reality in a short time will emerge. A big step forward, thanks to the collaboration of those responsible for the Provincial Council, the program coordinator, Cristobal Perez, and the collaboration of the University of Cordoba.

Group photo of the training action in Local Network of the Provincial Council and the Director of Sport UCO.

D. COLLABORATION WITH THE SPANISH UNIHOCKEY FLOORBALL ASSOCIATION

The Spanish Association wanted to incorporate our club in its board of directors, through our technical director Rafa Garrido, to enhance the promotion of the AEUF of floorball at Andalusian and also university level.

In addition its training area also incorporated Rafa as a teacher in coaching courses given his extensive experience already as a professor of sports law in the Andalusian Football Federation, and as a sports manager at the University of Cordoba, teaching his first subject in the course of technical floorball level 1 held from Christmas.

The screenshot displays a Zoom meeting interface. The main window shows a presentation slide titled "3. DESARROLLO PROFESIONAL DEL TÉCNICO I DE FLOORBALL UNIHOCKEY. Filosofía Superglads - Floorball España: #DESporte". The slide content includes three bullet points: "D de DIVERTIDAS para los participantes.", "E de EDUCATIVAS que completan la formación académica con auténticos valores deportivos.", and "S de SALUDABLES que ayudan a adquirir hábitos de vida saludable como el ejercicio físico regular." The slide also features a logo for "FLOORBALL ESPAÑA" and a photo of a group of people. The Zoom interface shows a list of participants on the left and a video gallery at the bottom with names: Rafael Garrido, AEUF FLOOR..., Tony Saez Ap..., Magnus Olson, Sergio Pazos, and Víctor Rodríguez.

AEUF Floorball Technician Professional Development online class.

E. COLLABORATION WITH THE UNIVERSITY OF CORDOBA

E.1 MEETING WITH THE UNIVERSITY OF CORDOBA AND AEUF

Regarding the university floorball, our club coordinated an important meeting between the AEUF and the University of Cordoba for its promotion. Just back from Easter, took place in the Rectorate of the UCO, the visit to the Rector, José Carlos Gómez, by the newly appointed head of university floorball worldwide by the International University Sports Federation, FISU, Carlos Lopez, at the time, secretary and representative in the IFF of the Spanish Association of Unihockey Floorball AEUF.

The rector of the UCO, Jose Carlos Gomez receives the award, along with the director of Sport, Marta Dominguez, and Rafael Garrido, Carlos Lopez and Fernando Garcia of the AEUF.

The idea was to thank the UCO for its promotional work of university floorball with our club and at the same time coordinate the promotion at the level of Andalusian universities, and above all, Spanish, given the position of president of the Conference of Rectors of Spanish Universities, CRUE, of José Carlos Gómez.

E.2 COURSE WITHOUT FLOORBALL ACTIVITY AT UCO DUE TO THE PANDEMIC

This academic year, however, it has not been possible, due to the prevention measures against Covid of the institution itself, to develop at the University of Cordoba any activity of contact or proximity sports, as is the case of floorball, so it has not been possible to carry out days, workshops, meetings or tournaments, as in the two previous courses.

A pity, since after two years actively collaborating with this type of activities, and having a good group of students participating in the meetings of the university floorball group that we coordinate, we fear that this break will mean a significant setback in practitioners, because when we return to organize any activity with the UCO most of them will have already completed their university stage.

F. OTHER EFFORTS TO PROMOTE FLOORBALL IN ANDALUSIA AND CORDOBA

F.1 ANDALUSIAN FLOORBALL ORGANIZATION MEETINGS

During the season we held several telematic meetings with heads of clubs, universities, and associations linked to floorball in Andalusia, in order to continue advancing in the organization of floorball at the Andalusian level, and to resume our joint activities as soon as the pandemic allowed it, something that was not possible during this season, but that all those involved showed our desire to be able to restart as soon as possible.

One of the online meetings of our technical director, Rafa Garrido, with Amador Lara from UJA, Fran Valverde from Floorball Nazaries, and Daniel Sepulveda from Unihockey Fuengirola.

F.2 MEETING WITH THE PRESIDENT OF THE MUNICIPAL SPORTS INSTITUTE

We also made representations to the local sports authorities. Before Christmas, the 17 In November we held a new meeting with the sports councilor of the city of Cordoba, Manuel Torrejimeno, the second in less than a year, in order to move forward in the creation of a municipal league and to see the possibility of using municipal sports facilities, so for the second consecutive year we have not been able to move forward at the municipal level.

Manuel Torrejimeno and Rafael Garrido after the meeting.

Unfortunately after the meeting, already the second, there were several attempts to initiate contacts and negotiations, but the season ended without any response to our proposals by the councilman.

APPENDIX PARTICIPATION DATA1.

2020-2021 SEASON:

Activities organized: number of sessions and participants	no.	Part.
Children's floorball school Cervantes Maristas Superglads school	28	189
Promotion of floorball in primary school. Cervantes Maristas School	5	112
Promotion floorball in secondary school. Virgen del Carmen School	10	186
Free floorball workshop for TSEAS students in MEDAC Open Arena	2	51
Promotional recreational floorball gatherings.	3	21
Online promotional talk of the floorball program Red Local de Diputación.	1	19
Training action of floorball training program Red Local de Diputación.	1	10
Teaching of floorball AEUF technician course.	2	14
TOTALS:	52	602

CUMULATIVE 2018-2021:

Cumulative data for the two seasons of the club's life: Activities organized: number of sessions and participation	no.	Part.
2018-2019 Season	48	827
2019-2020 season (half-season halted due to health situation)	50	1.503
2020-2021 Season (activities very limited due to health situation)	52	602
TOTALS:	150	2.932
